## FRIDAY FLYER

14<sup>th</sup> June 2019

Dear Parents and Carers,

What a week to start landscaping the Jubilee Garden!! Hopefully our gardeners will get a better start next week. A reminder that next Friday is Sports Day and as usual it is being held at Paignton Rugby/Cricket Club. Thank you to Mrs. Williams and Mrs. Perkins who are busy organising everything.

On Wednesday we will be having a whole school photo taken, something we have not done for a long time. Please can you ensure all the children have their full school uniform on and school jumpers on or at least in school for Wednesday. Also, a reminder that the children should come to school on Friday in their school PE kit. Many thanks.

PICTURE DAY

Today Years One and Two, as part of the school curriculum, are taking part in a beach clean. Well done to all the children and teachers for taking this initiative. We have had a super Eco-Fest fortnight in school. The children have been teaching the adults a lot about why and how we care for our environment. With our young people there is hope for the future.

On Thursday Mrs. Williams took the Reception class to PCSA for their first festival. It was a great occasion and the children thoroughly enjoyed themselves, taking part in all activities with great enthusiasm. Year Five also enjoyed a fantastic day at South Devon College. They were invited to take part in the annual 'Skill Build' event. Amongst other things, the children, and adults, had the opportunity to be bricklayers, plumbers and electricians. This afternoon they are taking the opportunity to visit our local historical cinema - Paignton Picture House - where they are watching the Electric Sound Palace. All sounds very interesting.

A reminder that the School Council are working hard to win the 'Plastic School's Award'. They are busy recycling many items and still welcome any old and used up pens. There is more information in the Flyer.

We wish you and your family a peaceful weekend.

Best wishes,

Helen Brown

### The Extraordinary Gardener – Sam Boughton

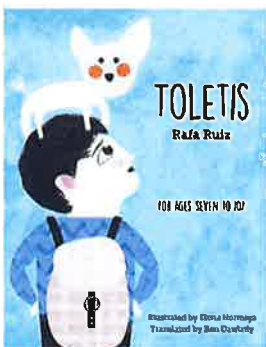

Joe is a boy just like any other, but Joe loves to imagine. Joe lives in a pretty ordinary tower block, in a rather ordinary city. His world is rather grey. However, he spends his time imagining a wonderful world filled with exotic plants and unusual animals. One day Joe decides to plant a seed on his balcony, he waits and waits but nothing happens! Joe gives up and goes back to his daily life, but one day when he least expects it he spots that the seed has turned into the most beautiful tree. Joe begins caring for the tree and growing lots of other plants on his balcony and soon everyone in the neighbourhood is getting involved.

### The Dragon in the Library – Louie Stowell

Kit can't STAND reading, She'd MUCH rather be outside, playing games and getting muddy, than stuck inside with a book. But when she's dragged along to the library one day by her two best friends, she makes an incredible discovery - and soon it's up to Kit and her friends to save the library ... and the world.

### Toletis – Rafa Ruiz

The trees are disappearing and the adults don't care. Toletis, his dog Amenophis and friends Claudia and Tutan are on a mission to turn their little valley town, set deep in the mountains, lushly green again. The odds are stacked against them. Can they succeed ...with some very unusual help?

# KNOW YOUR ENEMY

The UK uses a staggering **38.5 million single-use plastic bottles every day**, of which **fewer than 60% are currently recycled!**

**Only 1% of the 2.5 billion** paper coffee cups used in the UK each year **are recycled.**

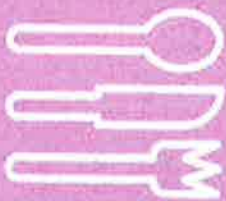

Used for just 20 minutes, once discarded **a straw can last in the environment for 100s of years.**  
Straws Suck!

**Plastic bags fragment in 100-300** years depending on thickness and size, **but will remain at large in the environment indefinitely.**

**Millions of toothbrushes are discarded every year in order to preserve our dental health.** Seek a non-plastic toothbrush to ensure they don't pollute our environment post use.

**Single use plastic utensils are often not recycled** due to contamination with food and cost of recycling per unit. **Refuse them, take your own and reduce this unnecessary addition to landfill.**

**Nearly 24 cotton bud sticks are found for every 100m of UK coastline!** These are incorrectly disposed of down the toilet and can last for over 150 years in the environment.

# #JOINTHERESISTANCE

**THE ENVIRONMENT NEEDS YOU!  
IT NEEDS YOU TO TAKE ACTION  
ON SINGLE-USE PLASTICS NOW.**

Join the Plastic Free resistance and help SAS protect our oceans from the scourge of throwaway plastic.

## Why plastic?

Convenient at the time, throwaway plastics are used for a matter of minutes, but last a lifetime in the marine environment, causing death and destruction to all that resides there. With parts of the ocean now holding more plastic than plankton, our entire ecosystem is under threat. Losing food, recreation and the oxygen giving qualities of the ocean will impact every single one of us.

## What can we do?

Looos! Start by ticking off your Individual Action Plan objectives and boycott throwaway plastics. Making simple changes to the way you live will make a huge, positive impact on our environment.
